Developer Advantage **1**

# Real-Time Project Performance Dashboard

See what is happening across your projects —
**without** exposing customer data.

## Project Visibility

- Total showcases per project
- Active sessions running
- Site visits generated

## Channel Partner Insights

- Which CP is actively showcasing
- Sessions conducted per CP
- Conversion movement by project

## Conversion Intelligence

- Session-to-site visit ratio
- Trends across weeks
- Early demand indicators

**Customer identity** remains secret-coded.
Performance visibility remains transparent.

Developer Advantage **2**

# Cross-Region Distribution Engine

Break free from local limitations — enable verified channel partners globally to showcase and qualify buyers from other cities and countries.

### Expanded Reach

- Connect with top CPs across multiple cities and NRIs worldwide

### Remote Pre-Site Qualification

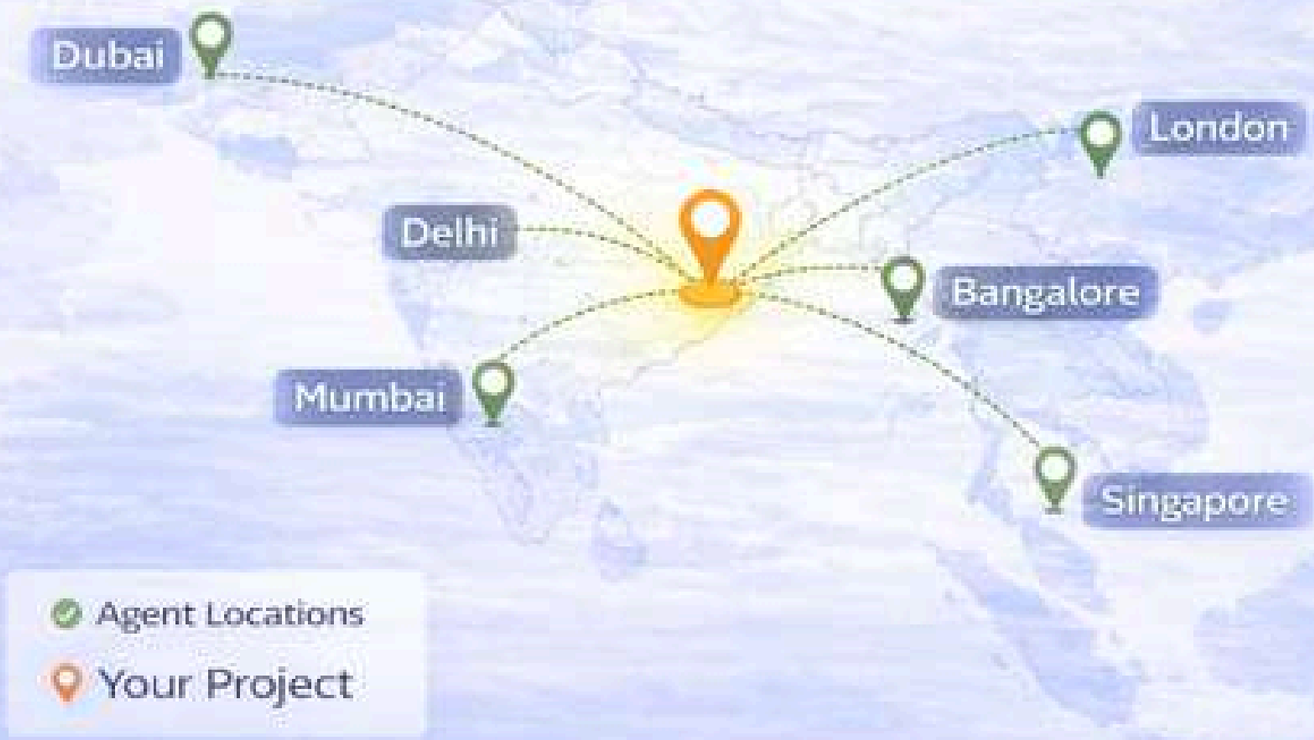
- Get cross-region buyers pre-qualified before they travel

### Global Buyer Pools

- Access NRI, relocation, and cross-city investment interest

### Network-Powered Sales

- Your inventory is no longer city-bound, it's network-bound.



*Your inventory is no longer city-bound, it's network-bound.*

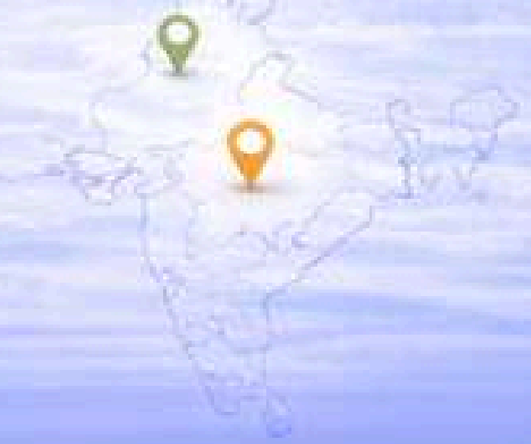
Developer Advantage **3**

# Higher-Intent Site Visits

Remote matchmaking ensures buyers arrive at sites already aligned on budget, unit type, and expectations.

- **Qualified Prospects Only**
  - Channel partners pre-align buyers remotely, focusing exclusively on serious candidates
- **Time-to-Decision Buyers**
  - NRIs and cross-city leads arrive prepared, reducing site visit drop-offs
- **Higher Closure Rates**
  - Site visits shift from exploration to confirmation

*Channel partners bring prospects aligned to your inventory, ready to transact.*



Developer Advantage **4**
